DETAILED ACTION

Receipt is acknowledged of the applicant's amendment filed on February 28, 2002, which has been entered.

Status of Claims

Claims 1-7 are pending in this application.

Response to Arguments

Claims 1-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ueda et al. (US Pat No. 5,229,527) or Blechschmitt et al (US Pat. No. 4,077,984) of record and the rejection has been maintained for the reasons given in the last office action. Applicant's arguments have been fully considered but are not deemed persuasive due to the following reasons.

Applicant's invention discloses the process for the production of phthalic anhydride from o-xylene and naphthalene using almost an identical active catalyst composition and reaction conditions. Applicants argue that using three zones rather than two zones catalyst beds produce superior results such as running-up times, yields and phthalide content purity etc. However, this argument is not persuasive because Blechschmitt et al also teaches a high yield (114.1%) and low phthalide content in the crude phthalic anhydride (0.001%) [column 4, line 20-25]. This is enough reason and motivation unless un-obviousness results can be shown. Additionally, it is obvious to a skilled artisan to prepare instant compounds by an old method using analogous starting materials including vanadium oxide, phosphorus, antimony and cesium as catalyst (Ueda et al., column 3) in the absence of any unobvious or unexpected results. Applicants should note that a generic teaching is grounds for rejection under 35 U.S.C. 103. One of ordinary skill in the

Art Unit: 1626

art would be motivated to prepare the compounds by using applicant's instant process since there is an exemplary teaching of a process to prepare the claimed compounds in the prior art.

Therefore, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
